

Who We Are

Founded in 1954, the Association for Corporate Growth (ACG) is the premier global association for professionals involved in corporate growth, corporate development, and mergers and acquisitions for mid to large companies.

Membership is comprised of leaders from public and private corporations, private equity firms, financial institutions, and professional service firms.

These leaders are charged with building value in their organizations and typically focus on strategic activities that increase revenues, profits and, ultimately, stakeholder value. Today, there are almost 12,000 members in 53 chapters in North America and Europe.

ACG Seattle provides members and guests with the finest quality educational and technical programs. The diverse programming provides access to a myriad of ideas to successfully and consistently achieve sound corporate growth, whether through internal or external means. Programs cover virtually every aspect of corporate growth and development.

As the business environment becomes more complex, executives face new challenges to profitability and success. The presentations offered by ACG Seattle provide senior corporate executives and professionals the opportunity to learn, grow and hone the skills necessary to successfully compete in a rapidly changing global economy.
