What is an ACG Roundtable?

ACG Cincinnati brings together a highly curated group of middle-market executives to benefit from peer-to-peer interaction. Our roundtable groups typically include 10 to 20 executives from non-competing industries committed to learning through peer-to-peer interaction. The groups typically meet monthly in a confidential setting so that participants can problem-solve with candor. It is a group that's right-sized to provide immediate feedback in today's fast-changing business climate while remaining flexible and responsive to the time and budget constraints of a middle-market executive.
