ACG: GLOBAL NETWORKING FOR THE MID-MARKET

Association for Corporate Growth

Driving
Middle-Market
Growth®

ACG's 15,000 members include professionals from private equity firms, corporations and lenders that invest in mid-market companies as well as from law, accounting, investment banking and other firms that provide advisory services across 59 chapters.

Founded in 1954, ACG is a global organisation serving 90,000 investors, executives, lenders and advisors to growth mid-market companies. ACG's mission is to drive mid-market growth.

ACG Holland was founded in 2005 and has gathered significant traction within the industry, attracting both members and non-members through its high quality content-led events, premium networking opportunities and thought leadership.

According to our members:

75% of ACG Members do deals with other members

86% of ACG Members are either very or extremely likely to recommend ACG to a friend or colleague

This return on investment has made ACG the most trusted and respected resource for mid-market dealmakers and business leaders who invest in growth and build companies.

ACG members value learning best practices from thought leaders and participating in networking events where they can grow relationships and make important connections to help their businesses both locally and cross-border.

Why join ACG?

- Access a global network of over 15,000 members from all areas of mid-market M&A
- Tap into cross-border opportunities across the globe with hundreds of events annually
- Expert intelligence with *Middle Market Growth* magazine, *GrowthTV*, webinars, podcasts and more

To give a flavour of ACG Holland, our membership, about 180 members, is broken down as follows:

“ACG is a fantastic networking organization, combining the best of building local groups with strong bonds and linking into to the wider global network where people are so willing to help”

“ I joined ACG having attended numerous events across Europe, becoming one of a number of my colleagues across the globe to enjoy the well-curated and widely attended networking events that the group organises. Our institution is heavily focused on international M&A, and I have found the ACG one of the best forums within which to interact with likeminded professionals. Events are well attended by fellow private equity firms as well as leading intermediaries within international M&A. I have no hesitation in recommending the ACG to fellow M&A professionals, particularly those with a focus on international markets and cross-border activity ”
