

Daniel Prince Ph.D.
CEO
Prince Sterilization Services

Daniel Prince has a BA Clark University, MS Rutgers University, and Ph.D. (in molecular biology) joint-degree Rutgers University and University of Medicine and Dentistry of NJ.

Daniel is the eldest son of Dr. Herbert and Leah Prince. His father Herbert launched Gibraltar Laboratories in 1970 and Daniel worked under his dad for many years and became a subject matter expert in many of Gibraltar's disciplines. When Herbert retired, he was selected to be the president. He grew the business and then sold it and created Prince Sterilization Services serving as the CEO. It was this innovation that has been recognized by 2023 ACG NJ today.

He is a long-time member of the Vistage peer group and many things he learned at Vistage helped him at Gibraltar and later at Prince. For example, he learned the importance of an external Board of Directors. He is a member of the Lift Up the Vulnerable Board of Directors. Prince is the author of many well-respected publications and the recipient of many business and athletic honors. He has also been involved in leadership in high school as the class treasurer and captain of the soccer teams, in college as a school newspaper columnist. He has been most successful building great teams that help bring his vision to life by executing his plan. Many of his teammates at Prince have joined him at his new company after working for him at his old company.

Most recently Prince Sterilization was named the 2022 NJMEP manufacturer of the Year Small business.

He has three children, two grandchildren, three stepchildren and two step grandchildren. He is happily married to Mercy Fu. Since marrying Mercy, he has learned much about the Chinese culture and has learned to speak Chinese at the beginner level. He began Prince to continue a family legacy and is so happy to be able to work with his son, Dr. Derek Prince. He still actively participates on championship tennis and pickleball teams and continues to be a dedicated fan of the NJ Devils Hockey Team. Daniel is thrilled to be honored today by ACG NJ.
