Case Study: HMD Global
Managing one of the most notable corporate carve-outs of 2016
CARVE-OUT SUCCESS STORY (HMD GLOBAL)

Transaction Overview:
In 2016, a Global Fortune 50 technology company sold a nearly half-billion dollar non-core global operation (“target”) to a consortium of multi-billion dollar global technology companies (“buyer”). Per the terms of the seller and the purchase agreement, hundreds of worldwide employees of the carved-out operation needed to be transitioned to the buyer.

The Challenge:
Before the transaction could close, the buyer needed to onboard several hundred of the target’s employees located across 50 countries. Since over half of those employees were located in countries where the buyer did not have existing entities, they needed a solution that enabled quick and compliant employee onboarding to complete the transaction.

The Solution:
Velocity Global’s International PEO offering provided a fast and compliant solution for the buyer. This took care of the employment needs and requirements necessary for maintaining the seller’s employees, enabling the executive teams to focus on setting up entities in each of the countries their new employees were located.

The Outcome:
The buyer successfully completed the acquisition and compliantly hired hundreds of employees in under two weeks through Velocity Global’s International PEO solution. As the buyer establishes its own entities, Velocity Global is seamlessly transitioning each employee off the International PEO model to the entities established in each country.

“The Velocity Global team is always there to answer any questions that my employees or I have and guide us through the next steps as we navigate this growth.”
