

## **Membership Criteria & Benefits**

ACG Connecticut's Young Professional Membership is available to new applicants aged 35 or under and who fit the membership criteria.

The Young Membership is \$250 per year (regular annual membership fee is \$550) and lasts for until you are the age of 36, after which the Young Professional Membership transfers to the regular tier of membership and annual dues increase to \$550.

ACG Connecticut's Young Professional Membership provides members within this tier access to ACG's **full range of member benefits**, as well as an additional event registration discount -- beyond the regular member discount -- and access to certain members-only events.

The Connecticut Chapter of the Association for Corporate Growth has initiated Young ACG for professionals age 35 and younger involved in corporate growth, corporate development and mergers and acquisitions. This is a unique forum to network with your peers and colleagues and explore best practices and share in professional development through a variety of educational, networking and social event and program opportunities.

**YOUNG ACG CT OBJECTIVE**: to (1) build a strong membership base of professionals age 35 and under involved in middle market corporate growth, corporate development, and mergers and acquisitions, (2) provide programs, events and networking opportunities for its members while assisting and promoting the goals of the greater ACG CT chapter.

\* Note: The Young Professional Membership tier is open to new member applicants only. If you are currently an ACG Connecticut member age 35 and under, you will remain at the \$550 annual dues rate, but you can receive the additional Young Professional Membership discount on events.
